

Giving you the ultimate “real block feel,” the **BLOCK-TEX**® window well design from **Shape Products**® is different from a traditional well and gives you the best view from your basement living space. We constructed a foundation wall out of authentic industrial block, then created a mold to match it’s unique texture. The built-in steps allow for fast escape in emergencies.

Safe

- IRC2015 Compliant
- Meets current fire egress code
- Built-in step aids in emergency escape

Appealing

- Modeled after landscape blocks with texture for an authentic look and feel
- One piece construction for easy installation

Durable

- Fiberglass construction prevents rust, rot, deterioration
- Withstands extreme temperatures
- Extra-large profile allows for egress windows up to 48" wide, giving you the most light
