

The StoneTex[®] II window well from Shape Products[®] is designed to give you the safest, most aesthetically appealing experience with your new window well project. The window well's fiberglass construction features a multi-step design to allow for fast escape in emergencies. The authentic cultured, limestone-inspired design and Sandstone finish create a beautiful surface while allowing more natural light to show through.

Safe

- IRC2015 Compliant
- Meets current fire egress code
- Built-in step aids in emergency escape

Appealing

- Authentic cultured limestone-inspired design adds clean, modern style
- One piece construction for easy installation

Durable

- Fiberglass construction prevents rust, rot, deterioration
- Withstands extreme temperatures
- Extra-large profile allows for egress windows up to 60" wide, giving you the most light

INSTALLATION OVERVIEW

Resin sealed finish - acts as a moisture barrier, prevents soil and water seepage, preserving the interior beauty of your well.

EGRESS COVERS - #STC7541

This StoneTex® II fire egress cover from Shape Products® is constructed from heavy-weight polycarbonate plastic and features a flexible design for versatile application. The molded backbar and steel insert provide maximum support and mounting hardware is included for easy installation. This cover protects against rain, leaves, insects, dirt, pests, and other debris, keeping your window wells clean, functional, and safe for your family.

- For use with Stonetex® II egress window wells
- Keeps well free from the elements, pests and debris
- 7-year limited warranty included
- Made in the U.S.A.
- Virtually unbreakable clear polycarbonate allows light in and does not obstruct your view
- UV-stabilized plastic inhibits sun damage & prevents hazing, cracking, and discoloration
- Sloped design naturally sheds water, snow, leaves, and debris away from your foundation
- Easy-release & re-closeable dual-lock hardware allows access from inside or outside of well
- Supports up to 400lbs
